

The Joy Project/Cookie Share – Smart Cookies Guide

Virtual Cookie Share

Virtual Cookie Share is used to track troop donations put towards participation in the Joy Project. For each \$4 donation by customers, the TPM assigns one Virtual Cookie Share in Smart Cookies.

Girl Scouts of Greater Iowa will donate Joy Project cookies to various non-profit organizations across our council, including food banks, shelters, and military organizations. Joy Project cookies do not come from your troop inventory.

1. To record a *Virtual Cookie Share*, log into Smart Cookies, go to the *Orders* tab, and select *Virtual Cookie Share* from the dropdown.
2. Enter the quantities in PACKAGES by girl and click *Save*.
3. Each girl that has at least 6 Joy Project donations credited to her will receive the Joy Project patch.

Logging Cookie Share using the Smart Booth Divider

If a troop receives Cookie Share donations at a booth sale, the *Smart Booth Divider* can be used to record the Cookie Share donations. *Virtual Cookie Share* is recorded under *CShare*.

See the [Smart Booth Divider – Smart Cookies Guide](#) for more information on how to use the Smart Booth Divider.
